On a side note, it was recommended that the Nominating Committee create a “special committee” to encourage/have members from each District to apply for each award given so that someone from each District is nominated for each award.

**Service Recognition (Jane McDaniel)**
It was asked that the Years of Service Recognition be re-implemented into the State Meeting. Jane looked into and decided to contact NCSU payroll to get each District members Years of Service. After receiving this information Jane came across a blooper. Those members who are 100% county paid are not listed in the NC State payroll system and there is no other information regarding years of service for those employees/members. At the time Jane realized this blooper, the information had already gone to print. Jane says that she will continue to work on getting this information. Will repost the same to the BOD and the general membership.
